

How to learn to write an essay in English: 9 resources to help you

Everyone hates writing essays. In American films, the characters roll their eyes when they receive a written assignment from a teacher. There are an infinite amount of jokes on the Internet, about how much time is spent on procrastination, overcoming the writing bloc, and then on compulsive writing of the text, because there is [no time left cheapest essay writing service](#).

Essay the most important stage of entrance tests in foreign universities. It is believed that even with not the highest score obtained in the exam, but with a well-written essay, you can have a good chance to become a student of the Harvard. If you add pathos, then we can say that the essay demonstrates your talent, potential, your ambitions and your personality. And, when you are already a student of a foreign university, you will constantly write an essay. Constantly.

Therefore, while English-speaking students are afraid, they hate and paint caricatures, it is better to spend time and learn how to express your ideas in writing without spoiling them with grammatical and lexical errors.

Here are 9 resources with which you can become, if not a master of the essay, then at least learn to write more confidently.

1. Prompts

In English prompts are hints. And that's all that makes this application tells. But this is already enough to practice writing skills.

This is convenient because it can be installed on a mobile phone and train even in the subway, even in a boring lecture.

Prompts advises where to start writing an essay and how to proceed. You do not know what to write about the application suggests. You wrote the first phrase and stuck the application helps.

In the Prompts more than 300,000 tips with which you forget what a writing stupor in the English language.

2. Grammarly

Install Grammarly in your browser and write without errors even English posts on Facebook (also a good writing skills training), at least a resume to a foreign company.

It works like this: you write the text in English, and the application suggests the correct spelling of words. You see in which words and sentences you most often make mistakes, and which words make it difficult for you to write.

3. Readability-Score and Hemingway App

These two services are very similar, so choose one that you find more convenient.

Have you ever heard of such a concept as the readability index? This is how your text is perceived by the reader. Sometimes reading is easy, and sometimes you read and stumble over ponderous semantic constructions, rarely used words, complex definitions.

Using the readability index, you can write a text on a complex topic so that the reader does not fall asleep on the first lines.

The Readability-Score and Hemingway App services help analyze your text and conduct a full analytics: count the number of words and syllables, determine the time of reading and even analyze the mood of the story positive, negative or neutral.

To make it easier to work on the text, the service underlines with different colors too long sentences and words, cliché, overkill with adjectives and adverbs.

4. Grammar Girl

This site is an outlet for Grammar Nazis in English. Here, the simplest form explains the most complex rules in which even native speakers stray. "A friendly guide to the world of grammar and punctuation" saved more than one novice English essayist on the exam.

If you doubt the use of time, in the correct construction of the phrase, and just get confused in grammar study this resource, you will surely find the answers.

5. Thesaurus

This is the world's largest free online dictionary, which is convenient to search for synonyms for words, as well as learn the definitions of the most difficult words. And now your vocabulary is expanding, and writing becomes more diverse.

With this service you will understand how easier it is to express your thoughts. But be careful! Before you use the word, still check its meaning! In English, synonyms can not always be used in the same situation.

6. Words to Pages

A simple site that performs one function: it counts words and repetitions in your text. They wrote the text, checked it, deleted unnecessary words you can send it to the teacher!

7. Essay Writing Service

The founder of the site, the writer Kimberly Chapman, says that as a student she helped her friends to write and edit essays. She was surprised that many school graduates did not learn to build the structure of their narrative. She saw what questions and what difficulties students had when they were just getting the topic of the written assignment.

Therefore, after completing the training, Kimberly created a site where she gathered lessons and tips, how to search for information, how to plan, how to write notes and how to write a good essay, and also provided examples of good and bad writing.

8. The Easy Essay and Essay Map

These two services are a step-by-step guide to writing an essay. This is your map, on which you move from the beginning to the final. You do not need to think about the structure, just go through the steps on the site, filling in each column and answering the questions of the program.
